Outside the Lines: Arts Teaching & Learning

January 9, 2007

Outside the Lines is a series of exhibitions and events celebrating and engaging participants from our school and community partnership programs. The series is presented as a part of Alameda County's [Art IS Education](#) 2007 showcase of youth learning in the arts, highlighting a shared vision for high quality art learning for every child, every school, every day.

A sea of change is afoot in Oakland, from the Mayor's office to our public schools. See for yourself in this series of exhibitions and events highlighting the work of students, teachers and communities. We are bringing back arts learning in our schools. Arts instruction increases social skills, student motivation, self-expression, creativity, critical thinking, imagination and problem solving ability. Through the arts, students can become effective communicators, responsible citizens, and well-rounded adults. We believe by providing quality arts learning experiences in our classrooms, we will grow stronger and healthier communities, schools, and students.

Events and Exhibitions Spring 2007

For more information click on individual events.

- [Arts Learning: A New Vision for Oakland Schools](#)
January 8-12, 21-31
